

## ABSTRACT

This invention provides a leakage-free absorbent pad for men. The absorbent pad for men of this invention includes a liquid permeable top sheet 1, a back sheet 2, an absorbent member 3 arranged between the both sheets, and a pair  
5 of liquid impermeable gather sheets facing each other on the top sheet 1, wherein a liquid permeable auxiliary sheet 10 is provided to extend from a side of one gather sheet 5 toward the other gather sheet 4 between the top sheet 1 and the gather sheets 4 and 5, and an opening 6 for inserting male genitals is formed by the auxiliary sheet and the other gather sheet 4.
